The Panhandle Worksite Wellness Council is proudly part of Panhandle Public Health District and specializes in supporting employers in the Panhandle region. We recognize that many employers support a diverse and remote workforce and offer innovative ways to overcome the challenge of working with a virtual team. We understand that many of our employers do not have full-time wellness resources and work to provide resources and training to make running a worksite wellness program as easy as possible.

Panhandle Public Health District is working together to improve the health, safety, and quality of life for all who live, learn, work, and play in the Panhandle. Our vision is that we are a healthier and safer Panhandle Community. Visit our website www.pphd.org.
